-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Objections

1. Claim 5 is objected to because of the following informalities: "GRRS" should be -GPRS-. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Sen et al U.S. Patent Number 6,708,034.

Re Claim 1, Fig. 4A teaches in step 410, RSVP enable router (a support node: GGPRS) receiving a PATH message (a packet) and step 412 determines if flow can be admitted (filtering the packet) wherein in step 412 the PATH message includes QoS parameters (See col. 4, lines 28-56 & also see col. 5, lines 20-30).

Re Claim 2, refer to Claim 1, wherein QoS request is in the form RSVP; fig. 4B teaches in step 438 activates PDP Context messages and supports GQoS signaling protocol (See fig. 4B: step 448).

Re Claims 3-6, See fig. 3, the support is GGPRS (See col. 3, lines 28-35), wherein fig. 4A the enabled router (GGPRS) relays request (PDP context request) to

Art Unit: 2663

SGSN (Step 418), fig. 4b teaches the SGSN forward RESV message to next node and step 444 determines whether the next node is MS or not and process steps 448 or 446 (send a secondary PDT context activation or create/modify PDP Context request message to the mobile) (See col. 6, lines 4-17).

Re Claim 7, "at least the data object content of a QoS request" is inherently sent transparently between the support node and the mobile terminal because the modification or updating of the RESV message is at the SGSN(s)'s admission function while traversing the PATH to the destination terminal.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Lee whose telephone number is 571-272-3130. The examiner can normally be reached on Monday to Friday from 8:30AM to 6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chau Nguyen can be reached on 571-272-2370. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
